Objective

Versatile software engineer with 4 years of experience in building robust web applications using Python, Django, and RESTful APIs, looking for new challenges in backend development.

Experience

Backend Developer

Digital Innovations | November 2020 - Present

Developed backend services and REST APIs using Python and Django.

Optimized database interactions and improved the performance of web applications.

Worked with cross-functional teams to ensure high-quality application development.

Used Git for source control and participated in Agile workflows.

Junior Developer

TechSpace | August 2018 - October 2020

Collaborated in building backend services using Flask and Python.

Managed MySQL databases and wrote efficient queries for data management.

Fixed bugs and contributed to improving existing features.

Skills

Python, Django, Flask

SQL, MySQL

REST APIs, Git

Backend development, debugging
