Objective

Proactive software engineer specializing in Python, Flask, and SQL, looking for an opportunity to work on innovative web development projects.

Experience

Full-Stack Developer

Tech Ventures | May 2021 - Present

Built full-stack web applications using Python, Flask, and JavaScript (React).

Designed and implemented RESTful APIs for real-time data processing.

Collaborated with product managers and UX/UI designers to improve user experience.

Managed version control with Git and conducted peer code reviews.

Junior Developer

Skyline Tech | July 2019 - April 2021

Assisted in developing backend applications using Java and Spring Boot.

Wrote complex SQL queries for data analysis and reports.

Participated in Agile sprint planning and daily stand-ups.

Skills

Python, Flask, Java, JavaScript

SQL, PostgreSQL

REST APIs, Git

Full-stack development, Agile methodologies
