Objective

Detail-oriented software engineer with 5 years of experience in developing scalable backend services using Java and Spring Boot, seeking to contribute to a collaborative and innovative engineering team.

Experience

Backend Engineer

Global Tech Solutions | February 2020 - Present

Developed RESTful APIs and microservices using Java and Spring Boot.

Integrated cloud services for scalable backend infrastructure.

Collaborated with frontend developers and DevOps to ensure smooth deployment processes.

Used Git for version control and JIRA for issue tracking.

Software Engineer

CodeWave | March 2017 - January 2020

Built and maintained backend services using Python and Flask.

Worked with MySQL and PostgreSQL for data storage and retrieval.

Fixed bugs and enhanced application performance in collaboration with the QA team.

Skills

Java, Spring Boot, Python

SQL, MySQL, PostgreSQL

REST APIs, Git, JIRA

Problem-solving, cloud integration
