(555) 555-5557

Objective

Motivated software developer with expertise in Python and Django, aiming to leverage experience in full-stack web development and RESTful API integration.

Experience

Software Developer

Innovative Apps | September 2021 - Present

Led the development of full-stack web applications using Python, Django, and React.

Integrated third-party APIs and implemented RESTful services for internal applications.

Participated in code reviews and used Git for source code management.

Worked with PostgreSQL databases to manage application data.

Junior Software Engineer

Bright Tech | January 2020 - August 2021

Collaborated in designing and building backend services in Flask and Python.

Maintained and optimized existing web applications for performance.

Assisted in creating SQL queries for managing data in PostgreSQL.

Skills

Python, Django, Flask

JavaScript, React

PostgreSQL, SQL

REST APIs, Git

Full-stack development, API integration
